

Have You Bought 'Till It Hurts?

This advertisement isn't written or published to convince you that you ought to buy Liberty Bonds. It assumes that you have good enough business judgment to see that there never was a safer or better investment; that you already have bought as many Liberty Bonds as you think you can afford.

What we want to urge is that you buy more than you think you can afford; buy 'till it hurts.

Just remember that the boys in France are not only doing your fighting, but they are doing your dying, too. You're going to get your money back with interest; nobody's going to give our soldier's lives back. Don't stop with what you've already bought; make sacrifices to buy more; they're small in comparison with what our fighting men are doing.

Let's all take inventory and then buy more and help to oversubscribe the third loan at least three times.
